

SERGIO HERRERA TOLOZA

IT Project Manager · Public Sector · Data Science & AI

Barcelona, Spain | sherrera@fen.uchile.cl | linkedin.com/in/sergio-herrera-toloza

PROFESSIONAL SUMMARY

IT Project Manager with over 10 years leading IT and digital transformation initiatives across Chile's public and private sectors, including 6 years in management roles. Led the €8M+ public tender for Chile's National Employment Exchange (BNE) 2025–2029 and contributed to the update of Chile's National AI Policy. Master's in Artificial Intelligence for Business, combining senior strategic management with hands-on technical capability in Data Science and AI.

PROFESSIONAL EXPERIENCE

Head of Department – BNE · Undersecretariat of Labour, Government of Chile

May 2022 – December 2025

Led the department running the National Employment Exchange (BNE), Chile's public national job-matching platform.

- Led a €8M+ public tender for the BNE platform 2025–2029, awarding the contract on schedule and safeguarding operational continuity for a portal with 500,000+ annual active users.
- Cut time-to-market for new releases by approximately 30% by setting strategic guidelines and quarterly action plans aligned with 4 key ministerial objectives.
- Provided technical coordination for the update of Chile's National Artificial Intelligence Policy.
- Managed public procurement processes ensuring operational continuity of critical digital services.

Process and Partnerships Manager · Chilean Medical Association (Colegio Médico de Chile A.G.)

September 2019 – January 2022

- Scaled digital transformation by implementing electronic signature and online payment, reducing in-person procedures by 40% and standardising 15+ institutional processes.
- Designed and closed 6 strategic partnership agreements with external allies, expanding the service base by 25% for 18,000+ members.
- Coordinated digital transformation projects with vendors and internal teams.

Planning Engineer · Education Quality Agency

February 2019 – August 2019

- Planned and operationally controlled nationwide technical evaluation visits to schools.
- Handled logistics coordination and monitoring of operational performance indicators.

Operations Manager / Planning and Performance Management · Civil Registry and Identification Service

April 2016 – June 2018

- Improved tracking of 12 institutional targets (Balanced Scorecard, senior public management and performance improvement programmes), reaching 94% compliance in 2017, 8 percentage points above the previous year.
- Managed a 2-project portfolio in the national public investment systems (BIP and Chile Indica) with a combined budget above CLP 300M, ensuring timely reporting to the Ministry of Finance.
- Supervised regional offices and delivered training on institutional processes and regulations.

Performance Management and Process Analyst · Financial Market Regulator (SVS) / Univ. de Viña del Mar / Cepech

May 2012 – February 2015

- Standardised information sources for budget control and public procurement across 3 organisations.
- Produced strategy maps and management reports for senior leadership.
- Managed risk matrices and improved digital citizen-service platforms.
